### ***DETAILED ACTION***

Claims 65-69 have been cancelled. Therefore, claims 1-64 are currently pending in this application. Claims 52-64 are withdrawn from further consideration by the Examiner, 37 C.F.R. § 1.142(b), as being drawn to a non-elected invention. The withdrawn subject matter is patentably distinct from the elected subject matter as it differs in structure and element and would require separate search considerations. In addition, a reference, which anticipates one group, would not render obvious the other.

### ***Response to Restriction***

Applicants' election the invention of Group I, claims 1-51 (all claims in part) drawn to

compounds and compositions of formula (I), depicted in claim 1, specific compound the species of example 7 recited in claim 64,

1-{3-[(6-amino-5-nitropyridin-2-yl)amino]propyl}-4-(2,4-dichlorophenyl)-N-[(1S)-2-hydroxy-1-methylethyl]-1H-pyrrole-3-carboxamide

in response, filed 25 November 2005 is

acknowledged. Because Applicants did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)). Therefore, the restriction requirement is deemed proper.

In accordance with M.P.E.P. 821.04 and *In re Ochiai*, 71 F.3d 1565, 37 USPQ 1127 (Fed. Cir. 1995), rejoinder of product claims and method of use claims commensurate in scope with the allowed product claims will occur following a finding that the product claims are allowable. Until such time, a restriction between product claims and process is deemed proper.

Art Unit: 1626

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

***The scope of the invention of the elected subject matter and examined is:***

Compounds of formula (1) , wherein: **X** is Nitrogen; **W** is selected from the group consisting of  $-\text{CONH}$ ,  $-\text{CO}$ ,  $-\text{CO}_2$ ,  $\text{NHCO}$  and  $\text{NRCO}$ ; **A<sub>1</sub>** is an optionally substituted six-membered heterocyclic group with one N; **R<sub>1</sub>-R<sub>8</sub>**, are as defined except that they don't represent a heterocyclic group.

As a result of the election and the corresponding scope of the invention identified supra, the remaining subject matter of claims 1-51 are withdrawn from further consideration pursuant to 37 CFR 1.142 (b) as being drawn to non-elected inventions. The withdrawn compounds contain varying functional groups such as morpholine, pyrimidine, tetrazole etc, which are chemically recognized to differ in structure and function. This recognized chemical diversity of the functional groups can be seen by the various classification of these functional groups in the U.S. classification system, i.e. class 544 subclass 180(+) (triazine), class 546 subclass 249(+) (pyridines), class 548 subclass 215(+) (triazoles), 548 subclass 400(+) pyrrolidines etc. Therefore the subject matter which are withdrawn from consideration as being non-elected subject differ materially in structure and composition and have been restricted properly a reference which

Art Unit: 1626

anticipated but the elected subject matter would not even render obvious the withdrawn subject matter and the fields of search are not co-extensive.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b).

### ***Objections***

Claims 1-51 are objected to for containing non-elected subject matter. .
